Re: Letter of support

Dear Ms. Williams:

This is a letter in enthusiastic support of Aloha Harvest's request for funding to expand your operations by increasing the hours of operations, and conducting outreach and education to potential food donors.

We receive food donations from Aloha Harvest, and this helps us in our work to feed the hungry.

We provide food to approximately 60 low income individuals weekly in need of support, and the food provided by Aloha Harvest, free of charge, is enables us to stretch our budget so that we can do more with less.

Since 1902, St. Elizabeth's has been a beacon of hope, a center of worship and a family of God, seeking to live out the Gospel with each other and among our neighbors in the Palama neighborhood of Honolulu, welcoming to all people.

We appreciate the partnership with Aloha Harvest, and urge your support of their important work.

Sincerely,

Karyn Castro
Parish Administrator
